Preparing your MA TESL e-portfolio: a brainstorming list

Your e-portfolio should contain a variety of documentation materials and should represent *you* as a professional. Use this list to help you remember, gather, create, and organize the important features and items that you want to include in the project. Make notes to help you organize what you already have and to remind you what more you need to seek out.

Photos & videos: What non-text items do I have that will help demonstrate how I have fulfilled the goals of the program? Themes & Colors: What choices best represent me? Thematic metaphor: A theme makes the e-portfolio coherent. What metaphor could I use throughout the portfolio to help a reader understand me and my activity in the MA TESL program better? Special interests and accomplishments: What did I do during my MA TESL program that is unique to me? Special skills or focus: In the field of MA TESL, what would I consider my "special expertise" and what papers/activities/projects represent this? Representative quotes: What are 5-7 brief "pull quotes" that I can use to highlight my accomplishments and represent my principled beliefs? These can be found by re-reading written work (including discussion posts, class papers, reflective papers, projects, etc.) and/or favorite books & articles.
